Item 11: Description of Proposed Improvements

Facility Overview
Frederick M. Richardson Park is located at 1717 Lake Street in the Jackson Square neighborhood of Natchitoches, LA, where it is owned and maintained by the City of Natchitoches. Richardson Park is situated on nearly three acres of land and surrounded by approximately 500 households in the immediate ½ mile radius. Richardson Park’s aging infrastructure and blighted structures include an old water fountain (not in use) and barbecue grill. In recent years, the park has seen very little use. We believe it is partially due to its declining conditions and lack of safety and accessibility. Amenities include a restroom for men and women that is currently in disrepair, one pavilion with old wooden benches and two (2) small playgrounds that are not accessible for those with disabilities. Richardson Park is in need of a facelift, the addition of parking spaces and LED lighting, as well as ADA playground equipment and features to enhance recreational use.

Description of Proposed Improvements
As a predominantly low income to low-mod community, Natchitoches residents rely primarily on access to local parks for recreation and exercise. The City of Natchitoches proposes a number of enhancements for the park, especially ADA improvements, as well as the removal of blighted equipment and rehabilitation of existing structures.

To improve opportunities for recreational use, the City will add a walking trail that provides people of all ages with an attractive, safe, accessible and low- or no-cost place to cycle, walk, hike, jog or skate. The walking trail will follow the inner perimeter of the park, measuring approximately 1500 linear feet. The walking trail will connect multiple facilities enabling accessibility to the new pavilion and restrooms, as well as provide bench seating near each of the new LED lights. In Natchitoches Parish, 31% of adults are obese and 13.3% of low income preschoolers are obese. Not only do communities with high quality walking trails see health improvements in its citizens, those health improvements translate into real medical savings for the community.

The City will also add a new 16x24 pavilion with four (4) ADA-compliant park benches and four (4) pedestal-mount barbecue grills throughout the park, accompanied by matching trash receptacles. To improve safety, the City will add eight (8) LED lights around the perimeter of the park, along the path of the walking trail. No overhead LED lighting currently exists at the park.

To improve sanitary conditions, the City proposes to rehabilitate the blighted bathroom facilities and existing park grill, as well as remove the unsanitary open and uncovered water fountain. Bathroom upgrades include painting, and replacement of toilets and sinks, as well as the addition of phenolic bathroom partitions to replace the rotted wooden partitions. Phenolic partitions have a 25-year lifetime guarantee, are corrosion and bacteria-resistant, and stand up to extreme humidity, typical to Louisiana climates.
To aid in accessibility, the City proposes to add a full package of inclusive play equipment for children and families with different abilities. Neither of the two playground installations are ADA-compliant. Adding ADA-compliant playground installations provides the community play equipment and a space that people with limited mobility who are in wheelchairs and other mobility devices can access.

Incorporating these pieces goes a step beyond that to ensure that caregivers and children of all abilities can enjoy the space. They also allow children of all abilities to enjoy the benefits of the six essential play elements, including climbing, spinning, sliding, brachiating, swinging and balancing while enhancing sensory development. The inclusive playground installation will be situated at the front of the park entrance adjacent to the newly installed parking lot. The ADA inclusive items will be built on rubberized surfacing and the rest of the products will be built on Engineered Wood Fiber.

Additionally, the City will add two small paved parking lots with 16 dedicated parking spaces. Currently, park guests use side streets for parking, offering no accessibility for disabled persons. This poses a danger to these residents and exposes parked vehicles to damage from through traffic. Adding parking spaces will improve the traffic flow and provide parking for park visitors that is safe and accessible from the main thoroughfare and side street.

Providing a free, safe and accessible space for recreation and wellness is important in promoting healthy lifestyles in the community and reduces exposure to COVID. By providing safe and accessible outdoor facilities for all ages and abilities, the City will help accomplish the goal of enabling outdoor activities with less exposure to the virus and improve facilities for our low to moderate income residents. The park equipment upgrades, walking trail with bench seating, and LED lighting and will better serve the community by creating a safe and inclusive recreation space that will contribute to the health and well-being of all its residents.

**Park Rental and Financial Data**

The current fee for park rental is $50 and will not be increased. Rentals for the last three years are listed below.

- 2020 – $900 (Only 4 months of rental due to Covid)
- 2021 – $1100 (Only 8 months of rentals due to Covid)
- 2022 – $2000 (Estimated 40 rentals based on total rentals over last two years divided by 12)

**Annual Maintenance**

- Lawn care/mowing from March – October: $1536.00 labor cost; Supervisor $ 480.00
- Playground mulching: $5400.00 per year; Labor = $768.00
- Estimated total annual maintenance: $8184.00 plus equipment
**Project timeline**

Upon the release of funding, the City will begin by removing the blighted structures, installation of the LED lighting, and rehabilitation of the bathroom facilities during the first 60-90 days. The next 60 days will involve installation of the new park pavilion, ADA benches, trash receptacles and barbecue grills. Lastly, the final three months of the project will include installation of the inclusive playground equipment and construction of the walking trail with additional bench seating. The full project scope is expected to be completed within seven (7) months.

Annual reporting will be submitted each year for a minimum of five years to certify revenue generated and expenses incurred for the facility, and will be submitted by the grant administration in the Mayor’s Office. Reports will continue to certify current ownership of the facility and the City’s Office of Community Development and Parks and Recreation teams responsible for maintaining the facility.

The new park layout is attached.

1. Enter the full names and addresses. If the person is an entity, the listing must include the full name and address of the entity as well as the CEO. Please list all names alphabetically.

2. Entry of the Social Security Number (SSN) or Employee Identification Number (EIN), as appropriate, for each person listed is optional.
